INDEX OF SUBJECTS

A comparison of the effects of micronutrient seed priming and soil fertilization on the mineral nutrition of chickpea *(Cicer arietinum)*, lentil *(Lens culinaris)*, rice *(Oryza sativa)* and wheat *(Triticum aestivum)* in Nepal (Johnson, Lauren, Welch and Duxbury), 427

A critical analysis of the agronomic and economic sustainability of organic coffee production (Van der Vossen), 449

Accounting for multi traits in recommending rice varieties for diverse environments (Samita, Anputhas and Abeysiriwardena), 213

Africa (eastern): Topcross hybrids as an entry into commercial seed production of pearl millet (Bidinger, Bhasker Raj, Abraha, Mohamed Ali, Obilana and Jones), 335

Africa (West and Central): Enhancing the capacity of national scientists to generate and transfer maize technology: research implementation, monitoring and evaluation (Badu-Apraku, Fakorede, Menkir, Marfo and Akanvou), 137

Africa: learning lessons from IITA's benchmark area approach for ecoregional research (Douthwaite, Baker, Weise, Gockowski, Manyong and Keatinge), 271

Agrometeorology. Principles and Application of Climate Studies in Agriculture, by Mavi, H. S. and Tupper, G. J., reviewed by D. K. L. MacKerron, 267

Arachis hypogaea See Groundnut

Aroids: The geographical distribution of allelic diversity, a practical means of preserving and using minor root crop genetic resources (Lebot, Ivancic and Abraham), 475

Assimilate storage in vegetative organs of coconut *(Cocos nucifer)* (Mialet-Serra, Clement, Sonderegger, Roupsard, Jourdan, Labouisse and Dingkuhn), 161

Barley: Crop productivity and soil fertility in a tropical dryland agro-ecosystem: impact of residue and tillage management (Kushwaha and Singh), 39

Below Ground Interactions in Tropical Agro-ecosystems, by Noordwijk, Cadish, G. and Ong, C. K. (Eds), reviewed by T. J. Daniells, B. S. Griffiths and B. M. M. McKenzie, 270

Biotechnology of Fruit and Nut Crop, by Litz, R.E. (Ed.), reviewed by Rex Brennan, 505

Brazil: Evapotranspiration and irrigation requirements of a coffee plantation (Marin, Angelocci, Righi and Sentelhas), 187

Calliandra tree fallow: Effect on subsequent groundnut, maize and cassava yields in mixed-food crop fields in southern Cameroon (Nolte, Tiki-Manga, Badjel-Badjel, Gockowski and Hauser), 21

Cameroon: Groundnut, maize and cassava yields in mixed-food crop fields after calliandra tree fallow (Nolte, Tiki-Manga, Badjel-Badjel, Gockowski and Hauser), 21

Carbon (^{13}C) and nitrogen (^{15}N) translocation in a maize-*Striga hermonthica* association (Aflakpui, Godwin Gregory and Froud-Williams), 321

Cassava: Effects of fallow duration on soil phosphorus fractions and crop P uptake under natural regrowth and planted *Pueraria phaseoloides* fallow systems in southwestern Nigeria (Kolawole, Tian and Tijani-Eniola), 51

Cassava: Field evaluation of root rot disease and relationship between disease severity and yield (Onyeka, Dixon and Ekpo), 357

Cassava: Yields in mixed-food crop fields (with groundnut and maize) after calliandra tree fallow in southern Cameroon (Nolte, Tiki-Manga, Badjel-Badjel, Gockowski and Hauser), 21

CGIAR: the role of the technical advisory committee natural resources management research (Harwood, Kassam, Gregersen, and Fereres), 1

Changes in the physiological performance of Leaf Scorch Decline (LSD) affected Coconut *(Cocos nucifera)* palms (Ranasinghe), 255

Chickpea *(Cicer arietinum)*: A comparison of the effects of micronutrient seed priming and soil fertilization on its mineral nutrition in Nepal (Johnson, Lauren, Welch and Duxbury), 427

Cicer arietinum See Chickpea

Climate Change in Contrasting River Basins. Adaptation Strategies for Water, Food and the Environment, by Aerts, J. C. H. and Droogers, P. (Eds), reviewed by Bruno Molle, 506

Cocoa: Genetic improvement and yields in Ghana (Edwin and Masters), 491

Coconut *(Cocos nucifera)*: Changes in the physiological performance of Leaf Scorch Decline (LSD) affected palms (Ranasinghe), 255

Coconut *(Cocos nucifer)*: Assimilate storage in vegetative organs (Mialet-Serra, Clement, Sonderegger, Roupsard, Jourdan, Labouisse and Dingkuhn), 161

Cocos nucifer See Coconut

Coffee: A critical analysis of the agronomic and economic sustainability of organic production (Van der Vossen), 449
Coffee: Evapotranspiration and irrigation requirements in a coffee plantation in Southern Brazil (Marin, Angelocci, Righi and Sentelhas), 187
Commercial seed production: Topcross hybrids of pearl millet in eastern Africa (Bidinger, Bhasker Raj, Abraha, Mohamed Ali, Obilana and Jones), 335
Communication for Rural Innovation – Rethinking Agricultural Extension, by Leeuwis, C. and van den Ban, A. W., reviewed by John K. Coulter, 269
Concise Encyclopaedia of Bioresource Technology, by Pandey, A. (Ed.), reviewed by John R. Hillman, 122
Crop productivity and soil fertility in a tropical dryland agro-ecosystem: impact of residue and tillage management (Kushwaha and Singh), 39

Developing Smallholder Agriculture: A Global Perspective, by Tinsley, R. L., reviewed by David Gibbon, 268
Dioscorea cayenensis-rotundata See Yam
Dryland agro-ecosystem: Crop productivity and soil fertility: impact of residue and tillage management (Kushwaha and Singh), 39

Ecoregional research in Africa: learning lessons from IITA's benchmark area approach (Douthwaite, Baker, Weise, Gockowski, Manyong and Keatinge), 271
Effect of varying maize densities on intercropped maize and soybean in Nepal (Prasad and Brook), 365
Effects of fallow duration on soil phosphorus fractions and crop P uptake under natural regrowth and planted *Pueraria phaseoloides* fallow systems in southwestern Nigeria (Kolawole, Tian and Tijani-Eniola), 51
Effects of manure and fertilizer on grain yield, soil carbon and phosphorus in a 13-year field trial of semi-arid Kenya (Kihanda, Warren and Micheni), 389
Effects of water availability and vine harvesting frequency on the productivity of sweet potato in southern Mozambique. IV. Radiation interception, dry matter production and partitioning (Gomes, Carr and Squire), 93
Enhancing the capacity of national scientists to generate and transfer maize technology in West and Central Africa: research implementation, monitoring and evaluation (Badu-Apraku, Fakorede, Menkir, Marfo and Akanvou), 137
Environmental Impacts of Sugar Production, by Cheeseman, O., reviewed by Mike May, 506
Environmental Risk Assessment of Genetically Modified Organisms. Vol. 1: A Case study of Bt Maize in Kenya, by Hilbeck, A. and Andow, D. A. (Eds), reviewed by Derek Russell, 385
Evapotranspiration and irrigation requirements of a coffee plantation in Southern Brazil (Marin, Angelocci, Righi and Sentelhas), 187

Fertilizer and manure: Effects on grain yield, soil carbon and phosphorus in a 13-year field trial of semi-arid Kenya (Kihanda, Warren and Micheni), 389
Field evaluation of root rot disease and relationship between disease severity and yield in cassava (Onyeka, Dixon and Ekpo), 357
Flower Seeds: Biology and Technology, by McDonald, M. B. and Kwong, F. Y. (Eds), reviewed by Richard Ellis, 505
Fodder Oats: a world overview, by Suttie, J. M. and Reynolds, S. G. (Eds), reviewed by John Valentine., 509
Food Wars. The Global Battle for Mouths, Minds and Markets, by Lang, T. and Heasman, M., reviewed by John R. Hillman, 384
Fruit and Vegetables: harvesting, Handling and Storage, by Thomson, A. K., reviewed by Ian Morrison, 269
Fundamentals of Soil Ecology, by Coleman, D. C., Crossley, D. A. and Hendrix, P. F., reviewed by P. B. H. Tinker, 267

Genetic improvement and cocoa yields in Ghana (Edwin and Masters), 491
Genetically Modified Crops: Their Development, Uses and Risks, by Liang, G. H. and Skinner, D. Z. (Eds), reviewed by Mike Kearsey, 384
Ghana: Genetic improvement and cocoa yields (Edwin and Masters), 491
Gibberellic acid post-harvest treatment of seed tubers: field performance of yam *(Dioscorea cayenensis-rotundata)* in Ivory Coast (Tschannen, Escher and Stamp), 175
Glycine max See Soybean
Groundnut, maize and cassava yields in mixed-food crop fields after calliandra tree fallow in southern Cameroon (Nolte, Tiki-Manga, Badjel-Badjel, Gockowski and Hauser), 21

Hancock, J. F. *Plant Evolution and the Origin of Crop Species*. 2nd Edition, reviewed by J. T. Walker and Alan Walker, 121
Handbook of Seed Physiology. Applications to Agriculture, by Benech-Arnold, R. and Sanchez, R. A. (Eds), reviewed by Stan Matthews, 268
Hordeum vulgare See Barley

IITA's benchmark area approach: Learning lessons for ecoregional research in Africa: from (Douthwaite, Baker, Weise, Gockowski, Manyong and Keatinge), 271
Improving Biocontrol of Plutella xylostella, by Kirk, A. A. and Bordat, D. (Eds), reviewed by A. N. E. Birch, 123

In Search of Sustainability, by Goldie, J. Douglas, B. and B. Furnass, B. (Eds), reviewed by Carol Duffus, 507
Increasing Productivity of Intensive Rice Systems Through Site-Specific Nutrient Management, by Dobermann, A., Witt, C. and Dawe, D. (Eds), reviewed by D. J. Greenland, 383
Increasing the client-orientation of maize breeding using farmer participation in eastern India (Virk, Chakraborty, Ghosh, Prasad and Witcombe), 413
India: Crop productivity and soil fertility in a tropical dryland agro-ecosystem: impact of residue and tillage management (Kushwaha and Singh), 39
India: Increasing the client-orientation of maize breeding using farmer participation (Virk, Chakraborty, Ghosh, Prasad and Witcombe), 413
Instructions to authors, 125

Niger: Stochastic dominance analysis of soil fertility restoration options on sandy sahelian soils (Ndjeunga and Bationo), 227
Nitrogen deficiency: Effect on performance of diverse maize genotypes under in the northern Guinea savanna of Nigeria (Kamara, Menkir, Ajala and Kureh), 199

Olive Propagation Manual, by Fabbri, A., Bartoloni, G., Lambardi, M. Kailis, S.G., reviewed by Hereward Corley, 386
Oryza sativa See Rice

Participatory evaluation of *Tephrosia* species and provenances for soil fertility improvement and other uses using farmer criteria in eastern Zambia (Mafongoya and Kuntashula), 69
Participatory plant breeding is better described as highly client-oriented plant breeding. I. Four indicators of client-orientation in plant breeding (Witcombe, Joshi, Gyawali, Musa, Johansen, Virk and Sthapit, 299
Pearl millet: Stochastic dominance analysis of soil fertility restoration options on sandy sahelian soils in southwest Niger (Ndjeunga and Bationo), 227
Pearl millet: Topcross hybrids as an entry into commercial seed production in eastern Africa (Bidinger, Bhasker Raj, Abraha, Mohamed Ali, Obilana and Jones), 335
Pennisetum glaucum See Pearl Millet
Performance of diverse maize genotypes under nitrogen deficiency in the northern Guinea savanna of Nigeria (Kamara, Menkir, Ajala and Kureh), 199
Peru: Mechanization of potato grading on small-scale farms: a case study (Butler, Bernet and Manrique), 81
Pest and Vector Control, by Van Emden, H. F. and Service, M. W., reviewed by Trefor Woodford, 267
Phosphorus: Effects of fallow duration on soil fractions and crop uptake under natural regrowth and planted *Pueraria phaseoloides* fallow systems in southwestern Nigeria (Kolawole, Tian and Tijani-Eniola), 51
Plant Development and Biotechnology, by Trigiano, R. N. and Gray, D. J., reviewed Steve Millam, 505
Post-harvest treatment of seed tubers with gibberellic acid and field performance of yam *(Dioscorea cayenensis-rotundata)* in Ivory Coast (Tschannen, Escher and Stamp), 175
Potato: Mechanization of grading on small-scale farms: a case study from Peru (Butler, Bernet and Manrique), 81
Pueraria phaseoloides fallow systems: Effects of fallow duration on soil phosphorus fractions and crop P uptake in southwestern Nigeria (Kolawole, Tian and Tijani-Eniola), 51

Raised Field Technology. The Raised Fields Projects around Lake Titicaca, by Morris, A., reviewed by David Gibbon, 123
Rice: Accounting for multi traits in recommending varieties for diverse environments (Samita, Anputhas and Abeysiriwardena), 213
Rice: Crop productivity and soil fertility in a tropical dryland agro-ecosystem: impact of residue and tillage management (Kushwaha and Singh), 39
Rice: Management of on-farm yield trials for testing adaptability of crop varieties (Abeysiriwardena), 245
Rice: Participatory plant breeding is better described as highly client-oriented plant breeding. I. Four indicators of client-orientation in plant breeding (Witcombe, Joshi, Gyawali, Musa, Johansen, Virk and Sthapit, 299
Root rot disease: Field evaluation and relationship between disease severity and yield in cassava (Onyeka, Dixon and Ekpo), 357

Sahelian soils: Stochastic dominance analysis of soil fertility restoration options in southwest Niger (Ndjeunga and Bationo), 227
Saving Seeds: The Economics of Conserving Crop Genetic Resources Ex Situ in the Future Harvest Centres of the CGIAR, by Koo, B., Pardey, P. G., Wright, B. D., reviewed by Dave Astley, 386
Seed Conservation. Turning Science into Practice, by Smith, R. D., Dickie, J. B., Linington, S. H., Pritchard, H. W. and Probert, R. J., reviewed by N. L. Innes, 122
Seed Fate: Predation, Dispersal and Seedling Establishment, by Forget, P. M., Lambert, J. E., Hulme, P. E. and Van der Wall, S. B (Eds), reviewed by M. I. Daws, 508
Seed priming: A comparison of the effects of micronutrients on the mineral nutrition of chickpea *(Cicer arietinum)*, lentil *(Lens culinaris)*, rice (Oryza sativa) and wheat *(Triticum aesticum)* in Nepal (Johnson, Lauren, Welch and Duxbury), 427
Site Specific Grasses and Herbs. Seed Production and Use for Restoration of Mountain Environments, by Krautzer, B., Peratoner, G. and Bozzo, F., reviewed by A. Marshall., 508

Soil fertility improvement: Participatory evaluation of *Tephrosia* species and provenances using farmer criteria in eastern Zambia (Mafongoya and Kuntashula), 69
Soil-Water. Solute Process Characterization. An Integrated Approach, by Alvarez-Benedi, J. and Munoz-Carpena, R. (Eds), reviewed by W. Richard Whalley, 507
Solanum tuberosum See Potato
Soybean: Effect of varying maize densities when intercropped in Nepal (Prasad and Brook), 365
Sri Lanka: Accounting for multi traits in recommending rice varieties for diverse environments (Samita, Anputhas and Abeysiriwardena), 213
Sri Lanka: Changes in the physiological performance of Leaf Scorch Decline (LSD) affected coconut *(Cocos nucifera)* palms (Ranasinghe), 255
Sri Lanka: Management of on-farm yield trials for testing adaptability of crop varieties (Abeysiriwardena), 245
Stochastic dominance analysis of soil fertility restoration options on sandy sahelian soils in southwest Niger (Ndjeunga and Bationo), 227
Striga hermonthica: Carbon (^{13}C) and nitrogen (^{15}N) translocation in association with maize- (Aflakpui, Godwin Gregory and Froud-Williams), 321
Sweet potato: Effects of water availability and vine harvesting frequency on its productivity in southern Mozambique. IV. Radiation interception, dry matter production and partitioning (Gomes, Carr and Squire), 93

Tephrosia species: Participatory evaluation and provenances for soil fertility improvement and other uses using farmer criteria in eastern Zambia (Mafongoya and Kuntashula), 69
The factorial field experiment (Pearce), 109
The geographical distribution of allelic diversity, a practical means of preserving and using minor root crop genetic resources (Lebot, Ivancic and Abraham), 475
The Oil Palm. 4th Edition, by Corley, R. H. V. and Tinker, P. B. (Eds), reviewed by Geoff Squire, 121
The Regulation of Agricultural Biotechnology, by Evenson, R. E. and Santaniello, V. (Eds), reviewed by W. H. Macfarlane Smith, 122
Topcross hybrids as an entry into commercial seed production of pearl millet in eastern Africa (Bidinger, Bhasker Raj, Abraha, Mohamed Ali, Obilana and Jones), 335
Translocation: Carbon (^{13}C) and nitrogen (^{15}N) in a maize-*Striga hermonthica* association (Aflakpui, Godwin Gregory and Froud-Williams), 321
Triticum aestivum See Wheat

Vanuatu: Assimilate storage in vegetative organs of coconut *(Cocos nucifer)* (Mialet-Serra, Clement, Sonderegger, Roupsard, Jourdan, Labouisse and Dingkuhn), 161

Wheat *(Triticum aestivum)*: A comparison of the effects of micronutrient seed priming and soil fertilization on its mineral nutrition in Nepal (Johnson, Lauren, Welch and Duxbury), 427

Yam *(Dioscorea cayenensis-rotundata)*: Post-harvest treatment of seed tubers with gibberellic acid and field performance in Ivory Coast (Tschannen, Escher and Stamp), 175
Yam *(Dioscorea cayenensis-rotundata)*: Post-harvest treatment of seed tubers with gibberellic acid and field performance in (Tschannen, Escher and Stamp), 175
Yams: The geographical distribution of allelic diversity, a practical means of preserving and using minor root crop genetic resources (Lebot, Ivancic and Abraham), 475

Zambia: Participatory evaluation of *Tephrosia* species and provenances for soil fertility improvement and other uses using farmer criteria (Mafongoya and Kuntashula), 69
